### Illumeo Product: Certified Continuing Professional Education Credit (CPE/PDC/Etc)

#### Customer Challenge

DLC has hundreds of certified professionals requiring continuing professional education (CPE) credit in order to maintain their credentials. Given the unpredictable and typically very busy nature of DLC's service business, any CPE solution would need to be easy to use, always available, and provide powerful yet simple CPE tracking.

#### Solution

Illumeo's CPE solution is all of that and more. It brings CPE credit in over two dozen key professional certifications, including for CPA, CMA, CTP, CIA, SHRM, HRCI and many more. The platform has hundreds of courses that don't only provide credit, they provide valuable insight, brought by the more than two hundred practitioner instructors who have built content. Illumeo also provides tools and a streamlined process for clients to build their own courses, which Illumeo then gets CPE approved if qualified. Users, manager, and HR partners have quick and easy access to powerful reporting that simplifies meeting CPE reporting needs. It's an elegant and effective solution.
