

Certification Description

Improve your credibility and career. Become a Certified Specialist in Internal Audit.

Sarbanes-Oxley (SOX) legislation is famously broad, complex and burdensome on publicly reporting companies. Since the passing of the legislation, there are always new twists or aspects that must be considered and embedded within the SOX compliance process.

This credential very thoroughly covers Section 302, 404 and all of the remaining, if less famous, sections of the act. It also covers the history and background of the legislation to provide full context and insight.

This certification will establish the learner as an expert within the field of Sarbanes-Oxley section 302 and 404 as well as overall standards and compliance with the legislation and will serve you, your company and your career well.

See next page for certification syllabus information...
