

# The Controllership Series

## Certification

### Certification Description

**This certificate program has been designed with these evolving facts in mind. In today's advancing digital world where so many transactional activities are now automated, the controller must look beyond the typical day-to-day recording duties and identify ways to help the organization move forward in a complex and dynamic economy.**

The courses included in this certificate will benefit any person serving in a controller role. It will provide the professional with new and innovative ideas to help their organizations move forward in an ever changing economy. Included in this certificate program are multiple tools that can be utilized by the controller in executing their role.
