

# Internal Audit Competency Assessment

## You Can't Improve What You Don't Measure

Why do most improvement initiatives fail? Because no one properly assesses the problem at the start, or there is no way to clearly measure impact at the end. Or both. It's that simple. Illumeo's Internal Audit Competency Assessment platform provides a quick, simple, versatile solution for assessing IA employees' learning needs.

Illumeo has pre-built assessments for Internal Audit and, more broadly, corporate finance and accounting, along with benchmarks for over 80 job titles. IA assessments and the subsequent discussion build engagement and trust between employee and manager.

If desired, companies can quickly and easily build their own custom assessments, or Illumeo can do it for them. All assessments lead to personalized learning recommendations for the employee and are easily kicked off and directed by the manager or human resources. Illumeo - simple, fast, affordable.
